

If you're considering making improvements to your home

ADDITION ■ REMODEL ■ BATH ■ KITCHEN ■ MAINTENANCE ■ REPAIRS

...or plan a new home or building...

We'd like to introduce Citadel Construction and a few people who have already used us.

Like Willoughby resident, Jim Dyer:

“...knowing that I have a firm that I can trust for all of my home needs is just wonderful.”

“I haven't hesitated to refer my friends at Citadel to my friends and neighbors at Willoughby.”

**Scroll down to
Meet the people behind Citadel Construction
and a few more folks we've worked for.**

From left: **Ed Joyce**, President, a 37 year veteran of the building construction industry in the Pittsburgh area and more recently here on the Treasure Coast; **Barbara Joyce**, Vice President, with two decades at the hub of the family's construction activities serves as business and finance manager; **Steven Wilson**, Operations, handles business development, project scheduling and client relations.

We are the Citadel Construction team... and here are a few more folks we've worked for.

Dave and Amy Brown,
Home Owners, Ft. Pierce
"Construction of an entirely new wing on our home was done on budget, just as we wanted it and with minimum impact on our daily lives."

George Adams,
Willoughby Resident
*"When I think of Citadel, I think of competence, courtesy, dependability—and they're nice people."
"If they say they'll be here Tuesday at 10, they'll be here Tuesday at 10."*

Lee Koch,
Indian River Drive
I am very pleased with Citadel Construction for their hands-on approach, excellent communication and especially the superior quality of my new 2,275 square foot building. I highly recommend Ed Joyce and his team.

**Talk to us about these
or any specific projects
you have in mind:**
